

**Microfiche & Microfilm cabinets**

Heavy-duty, all-welded construction will withstand years of use. Black molded pulls are flush with drawer face, with label holders for fast identification and access. Features Accuride™ ball bearing full-extension slides. Hold-in detent prevents drawers from "drifting" open. Fully interlocking drawers allow only 1 drawer to be opened at a time. Microfiche cabinets feature 2 compartments and 2 mechanical compressors per drawer. 4-drawer model holds up to 8,500, 4" x 6" fiche per drawer and the 8-drawer model holds up to 8,600, 4" x 6" fiche per drawer. Microfilm cabinets have 3 formed dividers welded to drawer bottom, to form 4 equal rows per drawer. 5-drawer model holds 520 rolls of 16mm or approximately 300 rolls of 35mm film. 9-drawer cabinet holds 936 rolls of 16mm or 576 rolls of 35mm film.
